PROFILE

I am a dedicated Full Stack Web Developer with a passion for creating innovative and efficient web applications. With expertise in both frontend and backend development, I thrive on building seamless and user-friendly digital experiences. My background includes hands-on experience with a variety of technologies and frameworks, allowing me to adapt quickly to new challenges and deliver high-quality solutions. I am committed to continuous learning, staying up-to-date with the latest industry trends, and exploring new languages to enhance my skills and contribute effectively to any team

PROFESSIONAL EXPERIENCE

June 2024 – present
Myanmar

Junior Full-stack Developer
Following a successful internship, I was promoted to Junior Developer. In this role, I am developing a learning platform for a local client using Laravel and Nuxt.js. Additionally, I maintain the Dimuto project, which operates globally. My responsibilities include discussing project requirements and progress with clients every Saturday and making pull requests in GitHub for each new feature. This position further refined my full-stack development, project management, and client communication skills.

March 2024 – May 2024
Myanmar

Internship full-stack web developer
As an intern at Revelio, I contributed to the development of a property app similar to booking.com ☐ . My responsibilities included developing user interfaces that adhered to UI/UX design principles, collaborating with senior developers to design and optimize the database, and creating robust backend APIs using Laravel. I worked extensively on the Vue.js frontend to build dynamic and interactive components, ensuring a seamless user experience. This role allowed me to enhance my skills in full stack development and gain practical experience in building comprehensive web applications.
