■ PROFILE

Full-Stack Developer with 2 years of professional experience building React and Node.js applications, including Android and iOS apps with Capacitor published on both the Play Store and the App Store. I build fast, reliable web and mobile products — from database schema and APIs to polished, production-ready interfaces.

■ EXPERIENCE

- **Mobile & Full-Stack Developer · MFI Ventures** Nov 2024 – Present · Philippines
 - Building and shipping Android and iOS apps with React and Capacitor, published on the Play Store and App Store.
 - Improved mobile app performance through windowed list rendering and optimized component re-renders.
 - Moved API calls to TanStack Query for reliable caching, retries, and background refetching.
 - Refactored the Node.js repo into an MVC structure with dedicated models and controllers.
 - Implementing online/offline form submissions with IndexedDB and background sync.
- **Full-Stack Web Developer Intern · Revelio** Mar 2024 – May 2024 · Yangon, Myanmar
 - Contributed to a property booking platform similar to Booking.com.
 - Built user interfaces that adhered to UI/UX design principles.
 - Collaborated with senior developers to design and optimize the database.
 - Created robust backend APIs using Laravel.
 - Built dynamic, interactive components on the Vue.js frontend.

■ PROJECTS

Road Safety for Myanmar Children

React Vite Tailwind CSS Supabase Framer Motion

Mobile-first learning app teaching road safety to children through visual flip cards and games, with downloadable flashcards and Mixpanel usage analytics.

Myanmar University Admission Checker

React Vite Tailwind CSS React Helmet

Real-time web app helping Grade 12 students find eligible universities and majors from matriculation marks, covering 100+ universities and 500+ programs.

Hmawbi Township SDG Dashboard

React Vite Tailwind CSS Recharts SVG

Health SDG performance dashboard with a clickable SVG map of six health facilities and interactive charts for comparing township indicators.

Clinic Queue Management System

React TanStack Query Tailwind CSS PWA React Router

Installable PWA for patients to book appointments and receive queue numbers in three steps, with offline support and an admin dashboard for clinic staff.

■ SKILLS
